

NEW WAVE

Illuminating Experience

DESIGN BY US

LIGHTING THAT STANDS OUT

The New Wave Optic lamp series is a bright example of how our design can create a room in itself. The series consist of a wall lamp and two pendant variations which both recognizes the Scandinavian style in its pure simplicity - but when the light is on, it is all but simple. The handblown wavy glass has an amazing effect as it creates an illuminating experience as it makes the light become alive. Especially the New Wave Optic Wall lamp works wonders on any surface and will leave you starstruck - if you want to intensify the lamp's light beams you can add the clear glass Eyeball to the lamp.

PRODUCT FACTS

Description

New Wave is a series of lamps made in different variations of glass. The designs are expressive and decorative with different variations and sizes to fit both smaller and larger environments

Designer / Year Of Design

Design by Us / 2016

Material

Mouth blown and hand painted glass, coated aluminium and textile cord.

Construction

The lampshades are made from mouth blown and hand painted glass shade. The pendants has a metal cap to cover the socket and the shade is mounted with a socket ring. The wall lamps has a base in metal and the shade is mounted with a socket ring. The Eyeball can be purchased as an add-on to alter the look of the lamp.

Maintenance

Be careful not to scratch the paint on the inside of the glass when cleaning the glass. Use a soft cloth with warm water and a mild detergent if necessary - wipe with a clean soft lintfree cloth. NO DISHWASHER!

Classification
