CPH 90 DESK

L130 X W65 X H74

DESIGN BY BY RONAN & ERWAN BOURULLEC

HAY

- PARTS -

A Leg x2

B Screw x8

C Screw x11

D Allen key

E Crossbar x1

F Table top x1

Protect the table top from scratches and other damage while assembling.

1.

Place the crossbar **E** on the table top **F** and fasten it with the screws **C** using the Allen key **D**. Make sure all the screws are inserted and tightened loosely, before tightening them completely.

ATTENTION

Be aware of the different lengths of the screws. Using the incorrect screw could damage the table.

2.

Place the legs **A** on the table top **E** and fasten them with the screws **B** and **C** using the Allen key **D**. Make sure all the screws are inserted and tightened loosely, before tightening them completely.

ATTENTION

Be aware of the different lengths of the screws. Using the incorrect screw could damage the table.

3.

Turn the table over. (2 persons recommended).

4.

If the floor is uneven and the table is wobbly, you can turn the feet to adjust them up and down to stabilise the table.

Our Care & Maintenance offers guidance for optimal maintenance of your HAY product. It includes advice and instructions on cleaning and caring for specific materials to prolong the life of your furniture.
