PEPO LAMP

2022

PePo PENDANT

Ø20cm and Ø30cm

The inspiration for this unusual mouth-blown glass lamp is from the pumpkin; a very organic and appealing design. The PePo lamp has a traditional function, but the form embraces soft waves and movements that are not usually referenced in glass lamps. With its playful nod to the pumpkin silhouette, the repetitive pattern gives the PePo lamp its versatile appeal from all angles, while the “stem” adds a fun and iconic element.
