

LINEA – A SERIES OF SANDCASTED PLANTERS IN ALUMINIUM

LINEA is a family of planters, designed by the award-winning Swedish designer Monica Förster. Each planter is carefully sand-cast in recycled aluminum, giving them a rustic surface and a unique expression, where no planter is exactly the same. Inspired by the Korbo basket, Monica Förster has created a form and concept that preserves the basket's tactility and craftsmanship values. The design plays with and highlights the "negative" form of the wire used to weave the baskets, which is brought to life in the carved-out lines of the planters.

KORBO

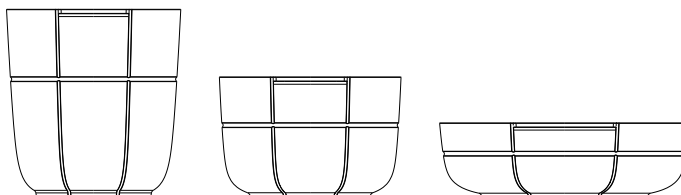

PRODUCTINFO: LINEA - A SERIES OF SANDCASTED PLANTERS

Designer: Monica Förster

Material: Recycled solid aluminium

Technique: Sandcasting

Use: Indoor and outdoor

ABOUT MONICA FÖRSTER

Monica Förster is one of Sweden's most successful designers. She was educated at Beckmans College of Design and Konstfack in Stockholm, and has won numerous awards for her designs over the years. Her work is characterized by a simple design language and a constant curiosity about new materials and techniques. There is also an ambition to create objects that preserve traditional craftsmanship and stand the test of time. Today, she runs her own studio, Monica Förster Design Studio, in Stockholm, and collaborates with a wide range of renowned design brands across the world.

A PLANTER BUILT FOR THE FUTURE

By using recycled aluminium, sustainability and aesthetics are harmoniously combined, where the shapes and timeless design create a product that is built to last for the future. The natural variations in the aluminium's texture create a lively feel, with each pot carrying its own story.

Aluminium is an ideal material for outdoor planters. It's a durable, lightweight material that withstands frost and cold winters, is easy to clean, and maintains its beauty year after year.

The planters come in three different sizes and can be used both indoors and outdoors. They are available with or without drainage holes in the bottom. Practical handles on the sides of the planters make them easy to move around.

Article no	40300	40301	40302
Name	LINEA planter no 1 - high	LINEA planter no 2 - medium	LINEA planter no 3 - wide
Top diameter (mm)	470	490	675
Height (mm)	507	325	201
Weight (kg)	16	12	13
