TR BULB COLLECTION
Designed by *Tim Rundle*

Audo introduces a striking new finish to its popular TR Bulb Collection.

Evolving the familiar in imaginative ways, Tim Rundle's adaptable TR Bulb Collection for Audo is updated with refined and reflective polished steel, enhancing lighting designs with a sleek, modern aesthetic.

The versatile TR Bulb can move with its owner from space to space, adapting effortlessly to different environments and proving that lighting solutions can illuminate both interiors and ideas across the world. With its in-built dimmable LED technology and opal glass diffuser, it emits a soft, glare-free glow that transforms the collection's fixtures — and spaces — with easy ambiance.

Complementing the clean lines and minimalist forms of the collection's Pendant, Ceiling/Wall Lamp, Suspension Frame and Suspended Wall Lamp, the new polished steel finish resonates across a variety of interior settings. Its lustrous quality reflects light to amplify its impact, while delivering a long-lasting finish that retains its beauty over time. The new finish also highlights the diffused glow of the opal glass bulb, creating a refined interplay between light and surface.

All designs are now available in polished steel, alongside powder-coated steel, brushed brass and mirror polished steel, with either a matte or shiny white opal glass bulb.

About the Designer

Tim Rundle's eponymous London-based industrial design practice specialises in product design, interiors and consultancy. Here, he turns highly technical ideas into simplified, useful forms, improving the manufactured environment through elegant, technically refined solutions. Prior to setting up his own studio in 2015, Tim was Design Director at Conran and Partners, the multidisciplinary design studio founded by Sir Terence Conran. In addition to running his studio, he also teaches at Platform 23 – Design for Manufacture under the Design Products Master's programme at the prestigious Royal College of Art.
