ADAM COLLECTION

ADAM COLLECTION

Ensuing a utilitarian approach, this collection consists of forms following function. Inspired by industrial expressions, its articles are envisioned to compliment scenes in your everyday life.

A minimalist bathroom interior with a light-colored wooden vanity on the left, a black metal stool on the right, and a wooden plank floor. On the vanity, there is a wooden tray with a glass bottle of soap, a bar of soap, and a candle. On the stool, there are folded white towels and a small black bottle. In the center, a white ceramic tray holds a brush, a small cup, and a bottle of soap. A large, rough-textured stone block is in the foreground. The background is a plain, light-colored wall.

The collection is inspired by industrial design, an artist's studio, and a workshop. The functionality and simplicity of the design, combined with strong materials, gives the collection a structural and utilitarian approach.
