Table lamp with diffuse light. Powder coated die cast zinc alloy base. Opaline injection-moulded polycarbonate internal diffuser, translucent injection-moulded polycarbonate external diffuser. The ON/OFF switch is fitted on the transparent cable.

<i>Design Concept</i> →	Two new Birdie models, both eye-catching and possible. Distinguished even further by minimal styling, focusing on the characteristic and iconic lampshade which made this model the star player of the Foscarini collection. The shape of the lampshade is far from random, rendering the image of a traditional bedside lamp, with a slightly tapered shape, which lends it uniqueness and makes it an icon. Birdie Zero: Light only.	
<i>Designers</i> →	L+R Palomba	Ludovica + Roberto Palomba set up their own studio in Milan in 1994, and their joint expertise ranges from architectural planning, to interior design, and partnerships as product designers and art directors with leading international brands; they have received major accolades such as the Compasso d'Oro award. Their philosophy is to create objects that interact in an immediate fashion with the people who choose them, creating an intimate, significant and long-lasting rapport. They have designed a large number of projects for Foscarini.
<i>Light</i> →	Diffuse	Its particular shape makes sure the lamp diffuses a soft and suffused light into its surroundings.
<i>Destination / Use</i> →	Bedroom Hotel rooms Living room Lounge Areas	Lightweight and simple: essence in a lamp! The matt white diffuser is the lamp itself which conceals the technology, revealing solely its function, guaranteeing an excellent lighting effect. High functionality, alluring and discrete styling that blends in with settings featuring various styles. Perfect for bedside tables, in both private and contract settings.
<i>Reason Why / USP</i> →		The hard-wearing material also makes it perfect for large accommodation facilities. Very affordable price, without compromising on quality.
