

Ocean Lounge Chair

Recycled post-consumer
e-waste

The Ocean Lounge Chair is a part of the Ocean Collection, a reimagined outdoor series, originally designed in 1955 by Jørgen and Nanna Ditzel. The burnt red version is made from post-consumer e-waste. E-waste is considered the fastest-growing waste stream in the world. E-waste consists of mixed plastic parts from end-of-life electronic appliances such as fridges, displays, keyboards, etc. Recycling end-of-life electronics conserves limited natural resources and reduces pollution of the environment. Durable for both private and public use.

Burnt Red

Designed by
Jørgen and Nanna Ditzel

Item no.
09335 Ocean Lounge Chair –
Burnt Red*

**Variation possible due to
recycled materials*

Country of origin
Poland

Materials
Slats made from recycled post-consumer
e-waste. One chair contains 2.3 kg / 81 oz
of waste materials

Steel tube, 20% recycled steel,
Gunmetal finish

Mater Sustainability Factsheet

Post-consumer e-waste

Consists of mixed plastic from large electrical equipment, household appliances, displays, fridges, etc. Recycling end-of-life Electronics conserves limited natural resources and reduces pollution of the environment.

Repair for long lasting

Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.

Contact our customer service for more info [here](#)

Flat-packed

All tables in our collection are flat-packed, ensuring a more sustainable journey from manufacturer to end customer. Follow the inlay for easy assembly of the table in your home.

Steel

Our Steel is made from 20% recycled steel with a gun metal finish. Steel is a strong and light material that can be processed in unlimited ways.

CO₂ Footprint

At Mater, we believe in the importance of transparency. By doing Life Cycle Assessments (LCA) on our furniture, we can analyse the total climate emission for each of our product's lifespan.
