# Karl-Johan Portable Table Lamp

Signe Hytte

**Materials**  
ABS, Polyethylene (PE)

**Dimensions**  
H 180 x Ø 160 mm

## About the Designer

Signe Hytte grew up among Scandinavian design icons, and that heritage serves as a foundation for her work. Drawing inspiration from culture and art rather than trends and tech, she aims to create objects, designs, and interiors that tell a story. With meticulous attention to detail, every project is an expression of a feeling, a dream, or an idea.

## A light for nature's elements

As a poetic tale, the Karl-Johan lamp now finds its way back to its source of inspiration: nature. In a new version, the lamp has been made portable so that it can also accompany you outside. The recognisable soft curves are made in a particularly durable material that keeps out the night's dew and the soil of the forest floor, while a soft light spreads over the elements of nature.

Inspired by nature, designer Signe Hytte has created the Karl-Johan Table Lamp for New Works. A new version of the lamp now makes it possible to bring the design back to its source of inspiration. Karl-Johan Portable is a small and easily transportable version of the original design, where the soft design language that characterises the lamp has been made particularly durable. This makes it possible to take the lamp out into the elements of nature; on the terrace from the first early spring evenings and for a swim on the beach on a warm summer evening. The material is impact-resistant and repels rain, dew, sand, and soil so that it can follow you indoors and outdoors – wherever and whenever.

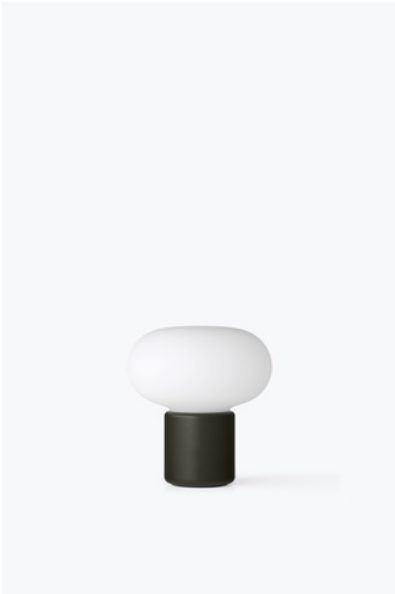

By twisting the upper part of the lamp, the light is easily switched on, softly diffused through the white lampshade. The brightness can be adjusted to three levels with a light touch underneath the lamp base. The base in the new version comes in five colours, which each in their own way creates a balance for the luminous upper part. The Karl-Johan Portable Table Lamp is charged with an included magnetic cable and can light for up to 22 hours.

## About New Works

New Works presents a collection at the intersection between old and new. Light and dark. Design and art. Our work pays homage to the strong Scandinavian history of craftsmanship and materiality, whilst challenging the contemporary forms of today. We collaborate with an international group of renowned designers and artisans, who display a matching fascination with sculptural forms and honest materials. These collaborative pursuits convey our love of the sensual, and of the bold.
