Seat Pad^{VP11} Verner Panton 1981

Product description

Seat pad

Environment

Indoor

Material

Moulded foam with magnet upholstered in fabric

Production process

The cushion is made of molded foam with an integrated magnet. The finished cushion is then covered with a sewn textile cover that has a logo stitched onto the back. On the back there's also a zipper which allows for insertion of the cushion during production and easy disassembly at end of life.
