H160 cm  
D60 cm

## DATASHEET COAT STAND 100

With inspiration in Japanese joinery, the Made by Hand coat stand is simple and easy to assemble for everyday use. The Coat Stand is a discrete, low-key design, in dialogue with its surroundings, but with a feeling of something refined and extraordinary. The Coat Stand is created in different wood finishes and sizes with a sense of tactility, something haptic that you can interact with. In meeting with your hands, you sense the smoothness of the wood, the beauty of the legs coming together and the small details of the brass or aluminium in the center.

---

COAT STAND  
ASSEMBLY INSTRUCTIONS

Use the following steps carefully to assemble your Coat Stand correctly and without putting unnecessary stress on the parts.

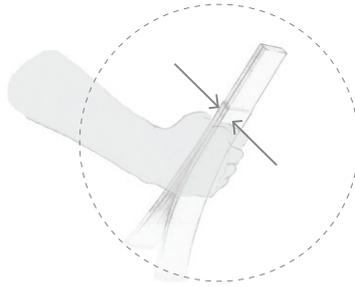

1. Part one pair of legs(1) and insert crossbar(4) as shown.

2. Push the legs(1) onto the crossbar(4) firmly.

3. This step creates all the beauty and tension in the entire Coat Stand.

4. Force the top parts of the legs(1) together as shown, to form the arches on the legs.

5. Keep the legs(1) pressed together, and insert them into the angled slots in the bar(3).

PLEASE NOTE

The top edge of the legs should be parallel with the bar and ground, as shown on the right. Make sure the metal detail is facing upwards.
